

Integrated Facility Management

Extensive service package from a single source.

Apleona HSG Facility Management has an eye for the whole picture: With our own team of operational specialists we offer integrated Facility Management services for virtually all aspects of a property or site – from individual trades to complex service packages. We help to significantly boost the worth of your property and add long-term value.

We offer technical, commercial and infrastructure-related Facility Management. We will optimise operation of your property – with end-to-end quality control and customised services. Benefit from low management costs that can be reliably calculated for the longer term, and divest yourself of all the work involved in running a property.

Technical Facility Management

Apleona HSG Facility Management ensures efficient technical operation for buildings and real estate. Here we follow the statutory provisions and regulations to the letter. With our technical Facility Management we help to reduce costs, for example in terms of operation, energy and conservation, while preserving the value of property and plant technology on a long-term basis. We take over responsibility for our clients' processes with perfectly customised solutions, so partnering them in their successful core business.
